1 Identification of substance

- · Product details
- · Trade name: <u>T Ink Red</u>
- · Article number: T-R-Q, T-R-P, M88-R
- · Application of the substance / the preparation Printing inks
- Manufacturer/Supplier: Marsh Shipping Supply Co.,LLC 926 McDonough Lake Road - Unit E Collinsville, IL 62234 USA
- · Information department: MSDS DEPT.
- Emergency information: Chemtrec 800-424-9300 International 703-527-3887

2 Composition/Data on components

· Chemical characterization

· Description: Mixture of the substances listed below with nonhazardous additions.

· Hazardou	s components		
1330-20-7	xylene	🗙 Xn, 🗙 Xi; R 10-20/21-38	73.073%
		Danger: 🛞 3.1.D/3, 3.1.1/4, 3.2/2	
		Warning: 🚸 2.6/3	
100-41-4	ethylbenzene	🗙 Xn, 👸 F; R 11-20	16.139%
		Danger: 🚸 2.6/2	
		Warning: 🚸 3.1.1/4	
	Phenolic polymer	R 18	6.464%
6483-64-3	C.I. Solvent Red 18	🔀 Xi; R 36	3.5%
		Warning: 🐠 3.3/2A	
108-88-3	toluene	🔀 Xn, 🔀 Xi, 🔥 F; R 11-38-48/20-63-65-67	0.448%
		Danger: 🚸 2.6/2; 🚸 3.10/1, 3.7/2, 3.9/2	
		Warning: 🚸 3.2/2, 3.8/3	
98-54-4	4-tert-butylphenol	🗙 Xi; R 36/37/38	0.27%
		Danger: 😔 3.2/1C	
		Warning: 🚸 3.8/3	

• Additional information:

For the wording of the listed risk phrases refer to section 16.

This product contains one or more reported or suspect carcinogens which are noted IARC, NTP, OSHA, ACGIH, OR NIOSH respectively

This product contains one or more reported or suspect mutagens

This product contains one or more Hazardous Air Pollutants (HAPS) which are regulated under Section 112 of the Clean Air Act.

3 Hazards identification

· Hazard description:

Xn Harmful

· Information pertaining to particular dangers for man and environment:

The product has to be labelled due to the calculation procedure of international guidelines.

R 10 Flammable.

R 20/21 Harmful by inhalation and in contact with skin.

R 38 Irritating to skin.

· Inhalation

Can cause nasal and respiratory tract irritation. Can cause Central Nervous System effects including fatigue, dizziness, nausea, vomiting, unconsciousness, respiratory failure, headache, possible hearing impairment.

· Potential Chronic Health Effects

Prolonged or repeated exposure of vapors, spray, or material may cause diseases of the lungs. Reports have associated repeated overexposure to solvents with brain and nervous system damage. Intentional misuse of this product may be harmful or fatal.

· Target Organs

Overexposure to this material or its components has been suggested as a cause of the following effects in laboratory animals and/or humans, and may aggravate preexisting disorders of these organs in humans: Anemia, Blood disorders, Brain damage, Cardiac function, eye, liver, lung, menstrual and fertility, skin, respiratory, Central Nervous System

· Classification system:

The classification was made according to the latest editions of international substances lists and from component data and msds information

· NFPA ratings (scale 0 - 4)

Health = 2 Fire = 3 Reactivity = 0

· HMIS-ratings (scale 0 - 4)

GHS label elements

3.1/3 - Toxic in contact with skin.
3.1/4 - Harmful if inhaled.
3.2/2 - Causes skin irritation.

2.6/3 - Flammable liquid and vapour.

· Prevention:

Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed.

	of page 2)
Ground/bond container and receiving equipment.	
Use explosion-proof electrical/ventilating/lighting/ equipment.	
Use only non-sparking tools.	
Take precautionary measures against static discharge.	
Avoid breathing dust/fume/gas/mist/vapours/spray.	
Wash thoroughly after handling.	
Use only outdoors or in a well-ventilated area.	
Wear protective gloves/protective clothing/eye protection/face protection.	
· Response:	
IF ON SKIN: Wash with plenty of soap and water.	
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/sho	wer.
IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.	
Call a POISON CENTER or doctor/physician if you feel unwell.	
Specific treatment (see label).	
Specific measures (see label).	
If skin irritation occurs: Get medical advice/attention.	
Remove/Take off immediately all contaminated clothing.	
Take off contaminated clothing and wash before reuse.	
Wash contaminated clothing before reuse.	
In case of fire: Use for extinction: CO2, powder or water spray.	
· Storage:	
Store in a well-ventilated place. Keep cool.	
Store locked up.	
· Disposal:	

Dispose of contents/container in accordance with local/regional/national/international regulations.

4 First aid measures

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

Take affected persons out into the fresh air. Involve doctor immediately.

• After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact:
- Rinse opened eye for fifteen minutes under running water. If irritation persists, consult a doctor.
- After swallowing: Do not induce vomiting; immediately call for medical help.
- · Information for doctor:
- The following symptoms may occur: Breathing difficulty
- Headache Dizziness Thirst Cramp Gastric or intestinal disorders Coughing Allergic reactions

5 Fire fighting measures

- Suitable extinguishing agents: CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. ABC powder
- Special hazards caused by the material, its products of combustion or resulting gases: Carbon monoxide (CO) Nitrogen oxides (NOx)
- **Protective equipment:** Wear self-contained respiatory protective device. Wear fully protective suit.
- Additional information Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Collect contaminated fire fighting water separately. It must not enter the sewage system.

6 Accidental release measures

- Person-related safety precautions:
 Wear protective equipment. Keep unprotected persons away.
 Ensure adequate ventilation
 Particular danger of slipping on leaked/spilled product.
 Keep away from ignition sources
 Wear protective clothing.
- *Measures for environmental protection:* Do not allow product to reach sewage system or any water course. Prevent from spreading (e.g. by damming-in or oil barriers).
- Measures for cleaning/collecting: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. Do not flush with water or aqueous cleansing agents Dispose of the collected material according to regulations.
 Additional information: See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

• Handling:

- · Information for safe handling:
- Store in cool, dry place in tightly closed receptacles.
- Keep away from heat and direct sunlight.

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

Handle with care. Avoid jolting, friction and impact.

Use solvent-proof equipment.

Hydrocarbon solvents are basically non-conductors of electricity and can become electrostatically charged during mixing or moving, observe grounding/grounding of containers and other equipment when handeling.

· Information about protection against explosions and fires:	
Keep ignition sources away - Do not smoke.	
Protect from heat.	
Protect against electrostatic charges.	
Prevent impact and friction.	
Use explosion-proof apparatus / fittings and spark-proof tools.	
Fumes can combine with air to form an explosive mixture.	
Flammable gas-air mixtures may be formed in empty receptacles.	
· Storage:	
• Requirements to be met by storerooms and receptacles:	
Store only in the original receptacle.	
Prevent any seepage into the ground.	
Information about storage in one common storage facility:	
Do not store together with reducing agents, heavy-metal compounds, acids and alkalis.	
Do not store together with oxidizing and acidic materials as well as heavy-metal compounds.	
Store away from foodstuffs.	
Further information about storage conditions:	
Keep receptacle tightly sealed.	
Store in cool, dry conditions in well sealed receptacles.	
Protect from heat and direct sunlight.	
Protect from humidity and water.	
Protect from exposure to the light.

General Information	
Form:	Fluid
Color:	Red
Odor:	Alcohol-like
Change in condition	
Melting point/Melting range:	
Boiling point/Boiling range:	$> 34^{\circ}C (> 93^{\circ}F)$
Flash point:	26°C (79°F)
Ignition temperature:	430°C (806°F)
Auto igniting:	Product is not selfigniting.
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixture
	are possible.
	In use, may form flammable/explosive vapour-air mixture.
Explosion limits:	
Lower:	1.0 Vol %
Upper:	7.8 Vol %
Vapor pressure at 20°C (68°F):	9.5 hPa (7 mm Hg)
Density at 20°C (68°F):	0.885 g/cm ³
Solubility in / Miscibility with	
Water:	Not miscible or difficult to mix.
Solvent content:	
Organic solvents:	89.7 %
VOC content:	793 g/l
Solids content:	10.3 %

10 Stability and reactivity

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

- Dangerous reactions Reacts with acids, alkalis and oxidizing agents.
- Dangerous products of decomposition: Nitrogen oxides Carbon monoxide and carbon dioxide

11 Toxicological information

· Acute toxicity:

· LD/LC50 values that are relevant for classification:

- · Primary irritant effect:
- \cdot on the skin: Irritant to skin and mucous membranes.
- \cdot on the eye: No irritating effect.
- · Sensitization:
- Sensitizing effect through inhalation is possible with prolonged exposure.
- Sensitizing effect by skin contact is possible with prolonged exposure.
- Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations:

Harmful

Irritant

Danger through skin absorption.

12 Ecological information

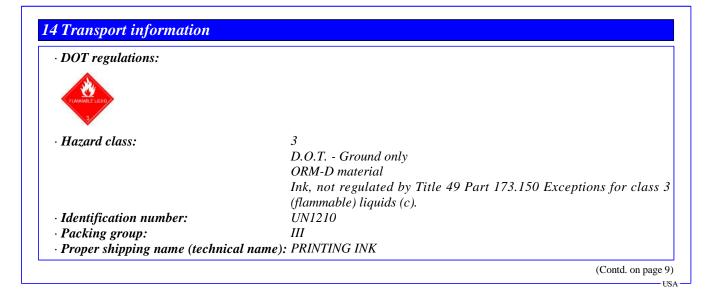

· General notes: This statement was deduced from the properties of the single components.

13 Disposal considerations

- · Product:
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Hand over to hazardous waste disposers.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.

Product related hazard informations:	
The product has been classified and marked in accordance with direct	tives on hazardous materials.
Hazard symbols: Xn Harmful	
Hazard-determining components of labelling: xylene	
Risk phrases:	
10 Flammable.	
20/21 Harmful by inhalation and in contact with skin. 38 Irritating to skin.	
Safety phrases:	
<i>Keep in a cool place.</i><i>Keep container in a well-ventilated place.</i>	
<i>Keep container in a weir-venitated place.</i> <i>Keep away from sources of ignition - No smoking.</i>	
23 Do not breathe gas/fumes/vapour/spray (appropriate wording to	o be specified by the manufacturer).
25 Avoid contact with eyes.	
36/37 Wear suitable protective clothing and gloves.	
43 In case of fire, use sand, carbon dioxide or powdered extinguish	hing agent. Never use water.
51 Use only in well-ventilated areas.60 This material and its container must be disposed of as hazardou	is wasta
I J	is waste.
National regulations:	
OSHA Process Safety Management: Appendix A to 29 CFR 1910.11	· · · · · · · · · · · · · · · · · · ·
50-00-0 formaldehyde	T.Q. 1000 lbs 0.006%
Occupational Safety and Health Act (OSHA)	
Immediate (acute) health hazard Delayed (chronic) Health Hazard	
Fire Hazard	
Water hazard class: Water hazard class 1 (Self-assessment): slightly h	nazaraous for water.
Other information	
To the best of our knowledge, the information contained herein is acc	aunata Housen naither the should remain

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

· Relevant R-phrases

- 10 Flammable.
- 11 Highly flammable.
- *In use, may form flammable/explosive vapour-air mixture.*
- 20 Harmful by inhalation.
- 20/21 Harmful by inhalation and in contact with skin.
- *36 Irritating to eyes.*

36/37/38 Irritating to eyes, respiratory system and skin.

- *38 Irritating to skin.*
- 48/20 Harmful: danger of serious damage to health by prolonged exposure through inhalation.
- 63 Possible risk of harm to the unborn child.
- 65 Harmful: may cause lung damage if swallowed.
